## Covid Test Centre guidance between Split and Zadar in Croatia

The following is a list of Covid testing centres and contact details, which offer PCR and Rapid tests with results in English, and which satisfy the rules of returning to EU countries or the UK, where tests are required.

Where people are sailing with our flotilla, we will ensure that yachts can always be accessible to a test centre to enable people to get their tests in time for them to have the results before they leave Croatia. This will have to be worked out on a week by week basis and will all depend on the days that people are travelling, which may not be the day the flotilla ends.

As a guide a rapid test, with results in English is 250 to 300kuna and a PCR test is 650 to 700Kuna. It is about 8.7Kuna = 1GBP, or 7.5Kuna = 1Euro.

More information is available on each centre using the links below.

**MURTER sports gym** (Put skole 3) 15 June – 15 September, starting every day from 6pm to 8pm.

This is about a 15 minute walk from the main base marinas in Betina or Murter. The same operator also has test centres near other marina locations that you may be sailing from, like Zadar Centre, Zadar Airport, Biograd, Sukošan, Vodice and Tisno, as well as other locations north of Zadar.

APPLY ON: [www.covid-zadar.com](http://www.covid-zadar.com)

In addition to these centres, then there are also others on the coast between Split and Zadar, with the details below
